Sakrebulo
of Khobi
municipality

Report
2006-2009

"I'd like to point out our goal once more: We've to justify all that confidence we've been granted by our voters, and put ourselves into service of society of Khobi and our country at all. We've to use all the resources provided by the municipality – be it of intellectual, professional, moral or economic value. Through inculcating democratic principles upon our community we will aid the process of establishing a civil society, a better understanding of our political and civil duties towards the country. Any collaboration between authorities and the society proves to be useless if not based on these relevant values."

A better Future will come only if each of us will do his very best in order to build it up. With the united force we've got all conditions for making the municipality of Khobi more successful and productive, therefore aiding the progress of our country."

Sakrebulo of Khobi municipality

* The Sakrebulo is an organization which represents the local self-government, which, using the power granted to it by the constitution, determines the course of activities of taken governmental unit, taking decision upon the matters of local importance and in order to ensure their executive force, supervises the executive organs of governmental unit and the activities of officials.

*Sakrebulo of khobi municipality consists of 31 members, elected in accordance of Georgian Rule “Concerning the Local Self-government” and of “Electoral Codex of Georgia”, what considers a fair, universal, equal and secret ballot. During the past period there were 5 issues of cessation of a membership and 3 issues of granting the membership to their substitutes.

* The Bureau of Sakrebulo consists of nine members, involving the head of Sakrebulo, his first assistant and the heads of different commissions and fractions.

*The Sakrebulo has created five commissions:

Commission performing the mandatory and procedural Duties

Commission of Law Issues and Human Rights Defense

Commission of Finances and Revision

Commission competent with social issues (including cultural, sport, education, health protection etc)

Commission of Economical Development (including agricultural, industrial etc)

* Considering the variety of political interests there are two political fractions in the Sakrebulo:

“The united national movement” and the fraction “Majoritari”

* The Sakrebulo also created a commission which may grant recognition of a lawful possession upon the plot to physical and judicial persons.

General Principles of Working Process in the Sakrebulo

* Protection of Georgian Constitution

*Unity of State and Local Interests

*Publicity

*An Open Discussion and Decision Making

*Consideration of the Opinion of population

*Protection of the Rights and Freedom of Population

*Accountable to Population

Main Goals of the Municipal Sakrebulo

*To strengthen and popular the institute of Self-Government

*Productive performing of representative and executive functions

*Refining and protection of the main principles of self-governmental rule

*Business like co-operation between the local and state structures

*Improving Productivity and performance by the local organizations

*Free and easy access for the population in implementing the self-governmental rule

*Care of citizens Welfare

Activities of Sakrebulo

In the beginning of every year, the commissions prepare a project of next years working plan, which has to be verified by the Bureau of Sakrebulo.

According to the current working plan, in the next year following project are to be implemented:

- * Fixation of local taxes and other measures having the equivalent effect
- * Fixation of the standard price of land not appointed for a rural use
- * Rules about keeping pet animals within the town's territory
- * Elaboration of rules about redistributing the assignations considered by the budget
- * Rules about inventarization of property possessed by local self-governmental unit and charges and sanctions against it, if it may occur as amortized or unused one.
- * Preparation of a set of regulative norms concerning the meetings and demonstrations within the territory of municipality
 - * Implementation of regulative norms concerning external advertisement
 - * Implementation of general rules of arrangement and care about graveyards located within the territory of municipality
 - * Implementing a concrete symbol for self-governmental unit.

General preparations and work about symbols of self-government (a flag and an emblem) are already done.

Procedures of enumerating and renaming of streets located within the territory of municipality have been put in charge.

According to the “Constitutional Agreement between State and Georgian auto cephalic Orthodox Church” and underlying the special appeal of patriarchate, churches, monasteries and other monuments of religious value are to be transferred into the possession of patriarchate.

Concerning to the establishment of the status of honored citizen of town, a special book of honor is to be published and a respective program to be presented. In the nearest future an according document and symbols are to be introduced.

The Sakrebulo has intense relations with many state structures. Since the day of elections, the council actively collaborated with Georgian Parliament and Government, including the ministries of justice and economics and their territorial units, with the administration of local governor and so on.

The Sakrebulo is collaborating with many non-governmental organizations and judicial persons (such as companies etc). Written, telephonic and personal consultations bear a frequent character. Among the partners of the council are:

- * The Centre of effective use of the board of administration and reform of territorial arrangement
- * The Centre of strategic research and development
- * Urban Institute
- * Association of local self-government
- * International republican Institute (IRI)

In current year, there were many seminars taking place concerning the matters of Economic, Law and Business Correspondence. The members of Sakrebulo and other officials are systematically participating in these arrangements, sharing with each other opinions about questions and problems, which still need to be solved.

In order to achieve an improved organization of Sakrebulo's activities, a sufficient utilization of its potential and a balanced coordination of developing directions, the Sakrebulo founded 6 plenipotentiary juridical persons:

- * Non-commercial juridical person — “The Centre of Culture of Municipality of Khobi”

- * Non-commercial juridical person_ “The Centre of Education of Municipality of Khobi”
- * Non-commercial juridical person_ “The Centre of Public Health of Municipality of Khobi”
- * Non-commercial juridical person_ “The Educative Centre for Children under School Age”
- * L.T.D. “Khobis Moambe”
- * L.T.D. “Khobi __ Cleanness and Light”

Since the very day of founding, these juridical persons are provided by complete support and authority from the Sakrebulo's side. Nowadays there are employed more than 500 men, with the uprising rate of payments (2008 __ 20%-30%, 2009 __ 30%-65%).

Officials working in the Sakrebulo and in structures under subordination of municipality pay great attention to the cooperation with the population, to the researching their problems and providing them with consultations.

Initiatives

With the purpose of revealing the opinions and interests of the population, the Sakrebulo periodically holds various sociological inquiries and researches. For better accomplishing its purposes, the Sakrebulo has created a group of sociological research. They're providing the society with questionnaires, asking for their opinions about the general course of activities lead by municipality, how they feel about local government, press and other events concerning the municipality. First Researches gave rather interesting and creative results and a detailed analysis of them were published in press. In the near future more experiments of this sort are planned, in order to let the government to get even closer to the society and became familiar with the opinion of masses.

Taking the initiative, from the end of 2006 until the beginning of 2007, the Sakrebulo had had several meetings with the population of towns and villages within the region, finding out their problems and demands, many of which were considered in the next year's budget.

The project of the budget is publishing in the local press for public discussion. Due to the requirements of current constitution, the budget reports of former years were also openly published and presented to the society for public discussion.

To achieve a more intense collaboration between the self-government and the society, the head of Sakrebulo took an initiative to announce, that at every month's last Tuesday, in the great hall of Sakrebulo, a meeting with the representatives of media will take place in the great hall of Sakrebulo, where the head of Sakrebulo and the members of bureau will answer the questions of press and television. In addition, there are the so-called “open-attendance” meetings holding place in various regions of municipality. Meetings held in Sajjiao and Chaladidi, two villages under the municipality's governance, had a great resonance from the population.

There is an intention about creating some sort of public hall, where the representatives of intelligence and youth will share progressive and creative ideas about the ways of increasing the sufficiency of municipality. Moreover, a project is planned to reveal the men of the year. According to this project, at the end of every year the most distinguished persons in the area of national economy and social-cultural field are to be revealed. The winners will be rewarded with certain amount of money, valuable presents and deeds of honor.

In August and September of current year, there are planed various social and cultural programs, with different regions and towns taking part at them. The aim as strengthen the relations between different parts of Georgia as well as sharing experience and opinions with each other.

On the initiative of the Sakrebulo, many innovative projects will be applied to the juridical persons for improving the general rate of employment, many of these projects already started up, having positive effects.

A password system is to be introduced concerning the arrangements organized by the Centre of Culture, what will aid the successful development of the center's activities. With the efforts of council, every cultural zone now has its bandmaster and choreographs.

From now, in the centre of informatics, are running learning courses of computer and office programs,

besides the youth can spend its additional time in playing computer games, what caused much greater interest to informatics.

The Sakrebulo already made arrangements about parks of culture and rest, about providing them with decorative plants and some other measures to improve their popularity. A work on planting on greenery in many parts of region has already begun.

The Sakrebulo suggested local publishing organizations about creating the so-called “Hall of the reader”, which will include a club of discussions as well.

Miscellaneous

* Central library of the municipality is amongst the best ones in the region, offering to a reader a rich variety of literary sources.

* The centre of education pays a special attention to the development non-class educational level, creating special institutions of various cultural and educational interests. Each of them has various groups for certain variety of art, literature or sports. Currently, in the House of Young Students are operating 11 learning groups, in the sport school — 21 learning groups. The school of music has courses in forte piano play and variety art. In this year, with the assistance of the centre of education many various conferences and arrangements were taking place in the region, involving the shows of young painters and designers, educational conferences and festive celebrations.

*The Choreographic ensemble “Lazika” (located in the School of Young Students) is achieving great successes, becoming a winner and laureate of many festivals. The sport sections also aren’t in any way worse—many of their sportsmen become prize-winners in competitions held in-or-out of the country.

*Every village has its own kinder garden, now with completely new, modern inventory, toy sets and other didactic materials. The Budget also improved the amount of finances considering for food maintenance in kinder gardens.

*The Centre of public health is sufficiently fulfilling its functions, such as the identification of risk factors, monitoring the overall observation of sanitary and hygienic norms, giving lectures and other sanitation measures on the matters of alcohol, smoking, drugs etc.

*In order to provide the population with communal services, the Sakrebulo created the L.T.D. “Khobi — Cleanliness and Light”, providing it with new inventory worth of 216400 Lari. The Finances were provided by the state budget. “Khobi — Cleanliness and Light” ensures the region with such public utilities, as the electrical lightning of streets and parks, cleaning and sweeping of streets, utilization of leavings, what was one of the most crucial problems in past years. An arrangement of sanitary days is in the making process.

*After the establishment of “Khobis Moambe” the disposition towards the local press has changed dramatically. Abandoning an outdated style established during past ten-years, the press company has choused new format equally welcomed by the government and population. The publishing house of local self-government acts according to the principles of free press, welcoming any critical courses and ideas and providing the population with the space of open discussion
